A **complete [menu](https://menuweb.menu)** of Connor's from West Seneca featuring all **30** dishes and drinks can be found here on the menu. Connor's Restaurant offers a mixed dining experience, with some aspects receiving praise while others fall short. The small square tables proved inconvenient for larger groups, and some dishes, like the broiled fish, lacked healthier side options. The presence of unexpected charges and missing listed items also left a negative impression. However, positive reviews highlighted delicious roast beef on weck, great service, and a cozy atmosphere. The old-fashioned decor and tasty beef on weck were particular favorites, with some diners recommending a visit for a satisfying meal. Despite delays in service and the absence of expected entertainment, Connor's Restaurant still manages to provide a charming ambiance and quality cuisine. While some improvements may be needed, it remains a potentially worthwhile dining destination for those seeking a cozy atmosphere and hearty meals.
