The restaurant from Cherry Hill offers **92** different **courses and drinks on [the menu](#)** at an average price of \$10.5. Honeygrow offers a fresh and tasty selection, yet recent visits reveal a troubling inconsistency in service and meal quality. While some guests rave about delicious salads and generous portions, others recount disappointing encounters, from missing ingredients and unappetizing dishes to concerns over food safety practices. Notably, issues like difficulty with refunds and lack of staff responsiveness emerged frequently. Despite these drawbacks, the vibrant atmosphere and friendly service have left many patrons hopeful for improvements. With rising prices and mixed feedback, diners may find themselves reconsidering their next visit to this fast-casual eatery.
