The place from Edmonton offers **96** different **dishes and drinks** on [the menu](#) at an average price of CA\$21. Despite being a typical KFC establishment, this particular KFC Taco Bell location seems to have significant issues with slow service and confusion among the staff. Customers have reported consistently long wait times at the drive-through, even during slow periods. The management change did not seem to have improved the situation, and the food quality has been consistently substandard. Overall, this restaurant seems to be a disappointment for those seeking fast and efficient service. It is recommended that diners avoid this location if they are looking for a quick and enjoyable dining experience.
