The restaurant from Flint offers **124** different **courses and drinks on [the menu](#)** at an average price of \$3.8. Customers' experiences at McDonald's vary greatly, highlighting a spectrum of service and food quality. While some patrons lament excessively long wait times and subpar food quality, including cold fries and incorrect orders, others report a remarkable turnaround at specific locations, where friendly staff and hot, well-prepared meals create a positive impression. Recent improvements in order packaging and delivery services have garnered praise, suggesting that certain branches have worked to enhance their standards. Overall, while nostalgia for McDonald's quality remains, its current performance appears inconsistent, sparking both frustration and appreciation among diners.
