Decibel is a unique and mysterious restaurant with a cool basement vibe, offering a great selection of sake served in a creative presentation. Despite concerns about cleanliness and hygiene levels, the restaurant has a fun overall vibe. Some customers have noted rude and pushy waiters but appreciate the authentic Japanese izakaya experience. The restaurant is often crowded and loud, with close seating and speedy service. The extensive sake menu and delicious plates make it a great spot for those looking for an izakaya experience in NYC. Overall, Decibel offers a different and quirky dining experience worth trying.
