A complete [menu](https://menuweb.menu) of Griffin's Pub & Eatery from [Oromocto](http://www.griffinspub.ca) featuring all 26 dishes and drinks can be found here on the menu. Griffins Pub Eatery, located in a somewhat inconvenient spot at base Gagetown, offers decent food and good pizza but has a few drawbacks. The setup is dated, the service can be hit or miss, and the atmosphere can be less than ideal, especially on Friday nights when it turns into a dance club with bad music. Despite these issues, the food quality is generally good, especially the half-aleat half-donair [pizza](#) and scallops wrapped in bacon. The staff is welcoming and the service is fast, with a great selection of beers. While some reviews mention forgetful service and outdated decor, others highlight the great value for portions, excellent biryani specials, and exclusive craft beer selection. Overall, Griffins Pub Eatery seems to be a mixed bag, with varying experiences depending on the visit. Despite its flaws, it offers good food, friendly service, and a lively atmosphere, making it a recommended spot for those willing to look past its shortcomings.
