The restaurant from Saint Paul offers **196** different **menus and drinks on [the menu](#)** for an average price of \$23.7. Kincaid's serves up a range of dining experiences, from delightful to disappointing. While many patrons rave about the delicious food and well-curated wine list, citing standout dishes like prime rib and sea bass, others report significant service issues, including slow drink delivery and inattentive servers. Complaints about lukewarm appetizers and undercooked meals marred some visits, while a lack of attentive management added to frustrations. Despite the tantalizing menu options and pleasant ambiance, inconsistent service and attention to detail seem to overshadow the dining experience, prompting some guests to reconsider their return. Overall, Kincaid's exhibits both promise and pitfalls.
