Diners rave about the freshness and flavor of their menu, particularly the all-you-can-eat French toast and generous breakfast sandwiches. Many praise the warm, inviting atmosphere and friendly staff. However, there are concerns about slow service, especially regarding online orders and drive-thru waits, which often lead to frustration. While the quality of the food, including satisfying salads and sandwiches, shines, inconsistencies in service may deter some customers. Overall, while the food delights, management attention to service speed could elevate the experience.
