Here you can find the [menu of Ramendou](#) in Sacramento. At the moment, there are **19** meals and drinks on the card. Nestled in a cozy corner of the community, this ramen restaurant offers a charming ambience but falls short in consistently delivering satisfying dishes. While some patrons rave about the rich flavors of their black garlic ramen and generous portions of eel bowl, others highlight issues with over-salting and uninspiring tastes. Service, however, appears to be the primary concern, with multiple diners reporting unwelcoming interactions from staff. Although the decor is inviting and there are glimpses of potential in the menu, many visitors suggest exploring other ramen options in the area that prioritize both food quality and customer service.
