On this website, you can find the **complete menu of John's Burgers** from Bakersfield. Currently, there are **16** dishes and drinks up for grabs. The restaurant in question has received mixed reviews. Some customers have expressed frustration with the layout and organization of the establishment, noting issues such as the reversed arrows in the drive-thru and the menu screens being far from the queue line. However, others rave about the delicious food, particularly the burgers and fries, which they consider to be the best in America. The variety of burger choices and the quality of the food have received high praise. While the service and prices can be a bit off-putting for some, many customers still find the food to be delicious and worth the visit. Overall, it seems that the restaurant's food is the main draw, despite some organizational and service-related shortcomings.
