On this homepage, you can find the **complete menu** of Five Guys from [Fishkill](#). Currently, there are **16** dishes and drinks available. Five Guys delivers a mixed dining experience that often swings between delightful and disappointing. The burgers and fries are frequently praised for their quality, and the added bonus of free toppings is a treat. However, inconsistent service, notably with online orders and cleanliness practices, raises concerns; some patrons noticed staff hygiene issues. While the food remains a favorite for many, the high prices can be a deterrent. On the positive side, exceptional customer service, seen through attentive staff and responsive management, adds value to the meal. Overall, it's a solid choice for burgers if approached with tempered expectations.
