On this homepage, you will find the **complete menu** of Towne from Saint-Sauveur-des-Monts. Currently, there are **82** dishes and drinks available. Towne, a new restaurant in the village of Saint-Sauveur, has replaced the previous 40 North. While some diners feel it doesn't quite measure up to its predecessor, others have had positive experiences. The service is generally warm and welcoming, but the food is described as ordinary and overpriced by some patrons. The presentation of the dishes is average, and some specialties like the tataki fall short of expectations. However, others have enjoyed their meals, especially the seafood offerings and desserts. Overall, Towne offers a mixed dining experience, with some finding it worth a visit while others feel there are better options in the area for a similar price.
