Tony's is a long-standing favorite for many, with loyal customers praising their delicious pizza and meatball sandwiches. However, recent reviews suggest a decline in quality, with complaints about high prices, smaller portions, and disappointing service. Despite these concerns, some customers still rave about the food and service, calling it consistently great. While Tony's may have its ups and downs, it remains a nostalgic spot for many, evoking memories of childhood pizza nights and family traditions. Deciding whether to revisit Tony's may come down to personal experiences and sentimental attachment rather than consistent quality.
