A **comprehensive [menu](#) of The Ranch House** from OJAI featuring all **49** meals and drinks can be found here on the list. The Ranch House, once celebrated for its culinary excellence, now offers a mixed bag of experiences. While many diners enjoyed the lovely ambience and outstanding service, others found the food inconsistent, with dishes like the pork belly and diver's scallops receiving praise, while the rack of lamb and dessert selection fell flat. The picturesque setting, complete with a serene koi pond, enhances the dining experience, yet concerns over lukewarm food and a decline in overall quality have surfaced. For some, it remains a hidden gem, while for others, it's a restaurant in need of revitalization.
